Using the Phone

Placing Calls:
Internal Calls
1. Pickup **handset** or press **Speaker**.

2. Dial extension or press pre-programmed shortcut key.

Outside Calls
1. Pickup **handset** or press **Speaker**.

2. Dial 9 to access an outside line, this is by default unless requested otherwise, and then dial the phone number.

Answering Calls:
1. Lift **handset** or press the **Speaker** button.

2. Using the **Answer** button will allow you to answer a call while on another line. When pressed during a ringing call, the first caller is placed on hold and the ringing call is answered.

3. To answer incoming calls not ringing on your phone, press the line key that the call is coming in on.

Note: Answer does not work with extension ringing.

Transferring Calls:
Directly to an extension
1. While on a call, press T**ransfer**

2. Dial phone number, extension number, or press extension key.

3. **Announce call** if necessary. Hang-up to complete transfer!

Transfer call to Voice Mail
1. While on a call, press **Transfer**

2. Press extension key, or dial extension number

3. Press the number **8** on the key pad, Hang-up to complete transfer to voice mail!

Keys on Phone

HOLD
Press the **Hold** button to place call on hold. Line key will flash green. To retrieve call press flashing line key.

TRANSFER
Transfers calls to an extension, outside number, or voicemail.

SPEAKER
Used for hands-free dialing or speaker phone.

RECALL
Hook Flash button. This is used for telephone company features such as 3-way calling.

ANSWER
Will place present call on hold and answer new call automatically.

FEATURE
Not used on this system.

MIC
Microphone on/off, must be **ON** in order for a two-way hands–free conversation. Also, it acts as a mute key when on an active call.

Directional Pad
Multi-function directional pad that control volume for handset, speaker, and ringer. When the handset is lifted, the d-pad adjusts the handset volume. When the speaker button is pressed, the d-pad adjusts the speaker volume. When the phone is ringing, the d-pad adjusts the ring volume. The center button also lets you check messages.

REDIAL ON DIRECTIONAL PAD
It will bring up a list of your last 10 numbers dialed. Once you've located desired number, lift handset or press speaker to place call.

SOUNDTEL

SOFTKEYS

Display while phone is **idle**:

```
Date             Day              Time
Ext. #                            Name
List        Dir        VMsg       Arrow

 ■           ■          ■           ■
```

▲
Softkeys (Press)
List, Dir, ICM & Prog:

List Softkey:
Shows **Redial** and **CID** (Caller ID) options. Redial stores the last **10** numbers dialed. CID stores last **50** numbers received.

(To use this feature you must have Caller ID service from the phone company.)

To use List:
1. Pick either Redial or CID option.

2. Scroll with **Softkey** arrows to locate number.

3. Pickup **handset** or press **Speaker** to dial.

Note: You must enter a 1 for returning long-distance calls from CID.

Dir Softkey:
The **directory** will show all your speed dial options for **System, Group, Station,** and **Extension.**

```
DIRECTORY DIALING

SPD        EXT        STA        TELBK

 ■          ■          ■           ■
```

To use Directory:
1. Press the **TELBK Softkey**, this feature is normally not used.

2. Enter first letter(s) of a name with phone key pad

3. Scroll with arrows to find name & number you are looking for.

4. To dial number, lift **handset** or press **Speaker.**

ICM Softkey:
This softkey is used for internal and external paging over the phone.

   InPg stands for internal page.
1. Press **InPg**

2. Dial **1** for all page

3. Pickup handset.

Prog Softkey:
Can program **call-forwarding** functions and set options for **DND** (Do not disturb) and **speed dialing**.

To use **call-forwarding:**
1. Press **Prog, Cfwd**

2. Then choose which call-forward option you want (example, all, both, busy, etc.)

3. Press **set**

4. Dial **9** + destination phone number **or** extension.

5. Press **speaker** to set.

   To Cancel: **Prog, Cfwd, option you chose, cancel.**

To use **DND**:
1. Press **Prog**
2. Press **DND**
3. Press **Set**
4. Select **ALL**

To Cancel: **Prog, DND, Cncl.**

SOUNDTEL

To store **speed-dialing** numbers on your personal **station directory**:

1. You must have an available bin number location (0-9). Each number stored in your station directory has an assigned bin number.

2. Press **Prog**.

3. Choose **STA** for station

4. At the SPD Program screen enter Bin location number (exp. 0-9)

5. Enter 9 + phone number using keypad, press **HOLD,** enter name using keypad.

6. **Hold, Speaker**

   Go to **DIR** softkey, press **STA** to locate and dial numbers.
   Note: To delete press Prog, STA, Bin number to delete, then exit.

System speed dials: Are set like station speed dials. With system speed dials all phone numbers and contacts are accessible to everyone on the phone system.

Ext. Speed dials. Shows all extensions numbers and numbers that are on the phone system.

SOUNDTEL

MISC, Trouble Shooting:

While in CID:
> You can toggle between name and phone number by using the **HELP** Softkey.

Turn-off Message-Waiting light:
> (Will sometimes flash when there are not messages)
> Press **Speaker**, dial **773**, press **Speaker**.

Call Forwarding:
> Can be accessed with SOFTKEYS: **Prog**, choose **cfwd** for call forwarding, **DND** for do-not-disturb.

To Cancel a Feature programmed under a DSS Key:
> Press **Speaker,** dial **751**, press programmed key, **00**.

To Transfer to an outside Phone Number:
> Press **transfer,** dial 9 + phone number, **feature, transfer,** then hang-up.

Group Listen:
> Allows a user to pick up the handset and let co-workers listen to conversation over the speaker.
> It also turns off the microphone, so that the caller does not hear the co-workers voices during the conversation, unlike a conference-call.

To use Group Listen:
> Place/Answer call, press **Speaker** twice.
>
> Cancel: Don't hang-up, just press **Speaker**.

Call Park:
> **Placing**: While on a call press designated **Park** button.
> **Answering:** Press designated pickup button, type in two-digit code assigned to parked call and call will be retrieved.

Conference Calling
1. Dial the first party
2. When that person answers, press the **CONF** key in your display.
3. Dial second party. Either dial 9 for an outside line or extension number.
4. When that person answers, press the **ADD** key.
5. Repeat steps three through four to add more parties.
6. Press the **BEGIN** key to establish the Conference call.

Note: If you cannot add additional parties to your conference call you have exceeded the systems conference limit. You can only add as many outside callers as your phone lines.
